

Auto Magic

Reconditioning Professional's #1 Choice®

WAXES, GLAZES & COMPOUNDS

NEW!

Net Wt. 13 oz. (368 grams)

- **HIGH GLOSS CARNAUBA WAX**
- **ADVANCED POLYMERS**
- **PROTECTS YOUR PAINT**
- **EASY TO USE**
- **EXTRA LONG LASTING SHINE**

Directions:

Wash and dry the entire surface before applying wax. Apply with a clean wax applicator pad. Cover the surface evenly, and then allow the wax to dry. Remove wax residue using a clean soft terry or micro-fiber towel. Buff to a high shine.

E-Z Wax® Paste

No. 17

**The Best VOC Compliant
Paste Wax on the Market!**

#17 E-Z Wax® Paste contains carnauba wax, which produces a glossy, wet looking surface. Also contains advanced polymers for extra long lasting protection. The polymers bond to the paint like never before. They penetrate and protect your paint against environmental attack. Road grime, bugs, grease and dirt clean easily from this waxed coating. The wax also fills in minor swirls and scratches to further beautify your vehicle. Non abrasive.

This ozone safe, VOC compliant wax is excellent for use on all automotive finishes; including marine, RV, motorcycles, aircraft, and other hard non-porous surfaces.

#17 is easy to use and doesn't leave a chalky, powder residue. It goes on and comes off with incredible ease.
