

Hand Sanitizing & Disinfecting Solutions

Today's automobile owners demand more from their detailer. Not only do they want an expertly detailed car, they also expect that car to be clean and safe. That's why Auto Magic is proud to offer disinfecting and hand sanitizing solutions so that the detailer not only delivers a car that shines—but also delivers peace of mind.

STERILEX® Two-Part Disinfectant

The STERILEX Disinfectant system is an EPA Registered product based on the proprietary PerQUAT® technology. The easy to use 2-part system is:

- Approved to disinfect surfaces and kill biofilm bacteria as well as penetrate and remove Biofilm
- Easy to mix, foam and use as soak or circulate
- Non-acid and Not formulated with phosphates or VOC's
- Compatible with wastewater systems
- May be sprayed, foamed or fogged
- Allow to dwell on surfaces for 10 minutes
- Easy to apply: apply wait 10 minutes, and wipe surfaces dry
- Two-part system:
 - STERILEX Ultra Disinfectant Cleaner Solution 1 - 1 Gal. - Part #501400
 - STERILEX Ultra Activator Solution - 1 Gal. - Part #501405

Hand Sanitizer

Auto Magic Hand Sanitizer is formulated to meet FDA regulations. Helps reduce bacteria when soap and water aren't available.

- Alcohol antiseptic 80% topical solution
- Double filtered to ensure elimination of all contaminants
- Glycerin-enriched formula will not chap hands even after repeated use
- Available in 2 sizes:
 - 1 Gallon – Part #502400
 - 8 OZ Spray – Part #502405

Both the STERILEX Disinfectant and Auto Magic Hand Sanitizers are proudly manufactured in the USA with foreign and US components
