

## Product Technical Bulletin

**PRODUCT NAME:**

Motor Paint – Black Semi-Gloss

**PART #:**

20-29-5

**PACKAGE:**

5 Gallon

**PRODUCT CATEGORY:**

Paints & Dyes

**COLOR:**

Black

**SCENT:**

Solvent

**PRODUCT DESCRIPTION:**

Black Semi-Gloss Motor Paint is a heavy-duty motor paint that restores and produces a hard semi-gloss finish. May be thinned with Lacquer Thinner if desired. Body shop safe.

**DIRECTIONS:**

Motor should be clean, free of grease, and dry. Dilute 1:2 with Lacquer Thinner and spray with 25 lbs. air pressure. Painting should be done in well-ventilated area. Avoid prolonged inhaling of fumes and contact with skin.

**NOTE:** If applying paint within the engine compartment, allow engine to completely cool before application, and allow to completely dry before operating vehicle.

**SURFACE APPLICATIONS:**

Engine valve covers, air cleaner assemblies, etc.

**ADDITIONAL USES:**

Use touch up or re-black wheel wells and chassis for a new car look.

**HELPFUL TIPS:**

Always shake before each use for maximum performance. Mask off
