

Product Technical Bulletin

PRODUCT NAME:

Ultra Shine™

PART #:

501101
501105

PACKAGE:

Gallon
5 Gallon

PRODUCT CATEGORY:

Dressings & Protectants – Solvent Based

COLOR:

Blue

SCENT:

Cherry

PRODUCT DESCRIPTION:

Ultra Shine™ is a superior VOC compliant, solvent-based dressing for exteriors. It is engineered to provide high shine, excellent coverage and minimal application time.

DILUTION RATIO:

Ready To Use

DIRECTIONS:

- Shake well and spray on.
- Allow to dry for maximum shine.
- No wiping required.

For the “wet look”, apply Ultra Shine™ directly onto the surface with a mist sprayer and allow to dry. For a less shiny look, apply, then use a sponge applicator and wipe until uniform.

DO NOT apply to engines, or brake/accelerator pedals.

SURFACE APPLICATIONS:

For tires, exterior rubber moldings and vinyl.

HELPFUL TIPS:

Be sure your surface is clean and dry before application of Ultra Shine™. Be sure to let your tires dry at least 10 minutes before driving. This will help to avoid product “slinging” onto body panels.

For interior protection please use No. 65 Super Dress-It All Purpose Premium Dressing & Protectant or No. 60 XP Cool Blue to provide shine and durability.

SAFETY & HANDLING:
