

Product Technical Bulletin

PRODUCT NAME:

Rubberized Undercoating

PART #:

90-S

PACKAGE:

16 oz

PRODUCT CATEGORY:

Aerosols

COLOR:

Black

SCENT:

Solvent

PRODUCT DESCRIPTION:

Rubberized Undercoating is ideal protection for coating fender replacements, new panels, section repairs, and weld joints. Rubberized Undercoating covers water leaks and cracks as well as resists salt corrosion. It also helps to deaden noise caused by flying rocks into the fender wells.

DIRECTIONS:

Use on a clean, washed and dry vehicle. Make sure fender wells are also clean and dry. Mask off paint, tire, and wheel before use. Shake can well before each use. Hold can upright and 4 to 6 inches away from area to be treated. Spray in a smooth and consistent pattern. Allow product to dry before driving.

SURFACE APPLICATIONS:

Under fender wells, fender replacements, new panels, section repairs, and weld joints

ADDITIONAL USES:

Excellent aid for sound proofing

HELPFUL TIPS:

Always shake before each use for maximum performance.

SAFETY & HANDLING:

Safety Data Sheets can found online at automagic.com
