Professional Car Care By EVERCOAT®

Midnight Dress-It®

Midnight Dress It® is a superior water-based dressing for exterior tire and moldings only. Restores original beauty to exterior molding, tires, and trim. Leaves a high gloss wet look to surfaces. Extremely durable; can last as long as 30 days depending on cleaning and maintenance of vehicle.

APPLICATIONS

- Exteriors only; tire and exterior moldings

BENEFITS

- Ready to Use
- Produces high gloss and wet look

DIRECTIONS

Shake well. For a high gloss finish, spray directly onto the surface or apply by hand with a foam or cloth applicator pad. Allow to set up for a least 5 minutes. This product will appear wet even after it sets up. If the vehicle needs to leave immediately after application, use a cloth towel to wipe down the surface to avoid product sling.

For economy usage, Midnight Dress It can be diluted up to 1:1 with water. However, it is best used as a full strength formula for exterior use.

HELPFUL TIPS

Be sure your exterior surfaces have been thoroughly cleaned before application of Midnight Dress It. Let Dressing set up at least 5 minutes before driving. This will help to avoid product "slinging" onto body panels. Product is best used on cool dry surfaces. PPE required.

TECHNICAL SPECIFICATIONS

Part #	54,54-5,54-55
Product Category	Dressings & Protectants, Exterior-Only
Color	Milky White
Scent	Lemon
Dilution Ratio	1 to 1
Package Size	Gallon, 5-Gallon, 55-Gallon
