PRODUCT NAME:

Cherry Bubbles™

PART #:

36A
36-5
36-55

PACKAGE:

16oz.
5 Gallon
55 Gallon

PRODUCT CATEGORY:

Soaps Exterior

COLOR:

Red

SCENT:

Cherry

PRODUCT DESCRIPTION:

Cherry Bubbles™, a super concentrated car wash soap, has outstanding cleaning capabilities. It makes the perfect tunnel wash soap with dilutions up to 250 to 1. Produces long lasting thick foam with a great cherry scent. VOC compliant, body shop safe.

DILUTION RATIO:

240:1 standard 5 gal bucket

TUNNEL SYSTEMS: Set metering unit for the soap arch at a suggested 250:1 dilution. Insert supply tube into Cherry Bubbles™ container.

NOTE: Dilutions may vary for each system.

DIRECTIONS:

Pour Cherry Bubbles™ at 240:1 into a five-gallon bucket. Fill with pressurized water, or hose. Wash vehicle using a wash mitt or a soft sponge. Rinse thoroughly, dry using a squeegee, drying cloth, or soft towel.

SURFACE APPLICATIONS:

For exterior washing/cleaning of clear coat, single stage, acrylic, lacquers, enamels, **fiberglass, Gelcoats**, as well as powder-coated paints. Also cleans glass, chrome, plastic, vinyl, rubber, wheels, tires, and more.

ADDITIONAL USES:

Excellent on RVs, boats, motorcycles, ATVs, and more.

HELPFUL TIPS:

Use on cool surfaces. To quickly cool the surfaces, rinse entire vehicle with pressurized water before use. This will also help to loosen and remove dirt. It is best to use a separate wash mitt or sponge on the lower body areas, fender wells, wheels, and tires. This way, if you pick up any small rocks and dirt, it won't scratch the painted areas.

Use a 2-bucket method one for wheels and tires, rocker panels, the other for painted and glass surfaces.

SAFETY & HANDLING:
