

## Product Technical Bulletin

**PRODUCT NAME:**

Ultra-Concentrate Wheel Cleaner

**Part#**

50250D

**PACKAGE:**

Gallon

**PRODUCT CATEGORY:**

Cleaners

**COLOR:**

Clear

**SCENT:**

Detergent

**PRODUCT DESCRIPTION:**

Ultra-Concentrated Wheel Cleaner, 50250D, diluted 1:5 is a professional water based wheel cleaner that removes brake dust and other stubborn grime. Cleans tires prior to the application of tire dressing.

**NOTE:** Do not use on painted or powder coated wheels

**DIRECTIONS:**

Test Ultra Concentrated Wheel Cleaner on a small, inconspicuous area prior to cleaning entire wheel. **Cool wheels off prior to applying chemicals.** Do not allow to dry on surface. Do not apply to aluminum, magnesium, plastic, powder coated, or painted surfaces. Use caution when using Wheel Cleaner. See S.D.S. for proper safety equipment.

**Step 1:** Rinse wheel thoroughly with water. Spray on surface and allow dwell time of 1-2 minutes. Agitate with a brush if necessary, to remove brake dust and corrosion.

**Step 2:** Rinse thoroughly with water.

**Step 3:** Wipe with a clean, dry cloth

**SURFACE APPLICATIONS:**

For use on original factory OEM wheels.

**HELPFUL TIPS:**

Avoid use on plastic center caps and components. **Never apply chemicals to hot wheels.**
