

Complete Interior™

A CLEANER AND DRESSING IN ONE

Complete Interior™ is a superior all-purpose, water-based silicone cleaner dressing for interiors. This cleaner dressing is formulated for plastic, vinyl, leather, and dashboards. Complete Interior restores original beauty to surfaces while leaving a non-greasy, semi-glossy-to-matte-finish. This product provides UV protectant and anti-static property to the interior of vehicle.

APPLICATIONS

Interior use only including: plastic, vinyl, rubber, leather, and dashboards.

DIRECTIONS

Shake well. For a clean protected finish, spray directly onto the surface or onto an applicator pad, and wipe clean. DO NOT apply to brake/accelerator pedals.

HELPFUL TIPS

Be sure your applicator pads and towels are clean before application of Complete Interior. Be sure to wipe dry. This will help to avoid product “running” onto interior body panels and surfaces. Complete Interior is best used on cool surfaces. Using an air nozzle will help apply product to door panels and tight areas.

TECHNICAL SPECIFICATIONS

Part #	44, 44-5
Product Category	Cleaner & Protectants
Color	Turquoise
Scent	Clean
Dilution Ratio	Ready to Use
Package Size	Gallon, 5-Gallon
