66-55

PACKAGE:

Gallon
5 Gallon
55 Gallon

PRODUCT CATEGORY:

Cleaners

COLOR:

Gray

SCENT:

Acidic

PRODUCT CATEGORY:

Cleaners

PRODUCT DESCRIPTION:

Spoke® is a heavy-duty, professional acid-based cleaner formulated specifically for use on chrome and wire wheels. Removes road film, brake dust, rust and other stubborn grime. This product is body shop safe and is VOC compliant when diluted properly (See Dilution Ratio below).

DILUTION RATIO:

Dilute at 1:1 up to 1:3 with water. Spoke® may be used at 1:1 with water for cleaning wheels with heavy or difficult contamination. Note: For California VOC Regulations product must be diluted 1:2 with water.

DIRECTIONS:

Test Spoke® on a small, inconspicuous area prior to cleaning entire wheel. Do not allow Spoke® to dry on surface. Do not apply to aluminum, magnesium, plastic or painted surfaces. Use caution when using Spoke®. See SDS for proper safety equipment.

Step 1: Dilute 1:1 up to 1:3. Product may be used at 1:1 with water for cleaning wheels with heavy or difficult contamination. Note: For California VOC Regulations, product must be diluted at 1:2 minimum with water.

Step 2: Rinse wheel thoroughly with water. Spray Spoke® on surface and allow dwell time of 1-2 minutes. Agitate with a brush if necessary to remove brake dust and corrosion.

Step 3: Rinse thoroughly with water.

Step 4: Neutralize Spoke® with #713 Special Cleaner, diluted 1:30.

Step 5: Rinse thoroughly with water.

Step 6: Wipe with a clean, dry cloth.

SURFACE APPLICATIONS:

Chrome or polished wheels, chrome wire wheels on automobiles, commercial vehicles, motorcycles and RV's.

HELPFUL TIPS:

Always test wheel surface first to make sure 66 wont damage wheel.

SAFETY & HANDLING:

Safety Data Sheets can found online at automagic.com

Use Proper Personal Protective Equipment when using chemicals
